Name :- Shubham Pawar

Course Name :- Java Full Stack Development

Ref. No. SCS/CG/2021/025

Program name :- MultiThreading

Code :-

```java
class Test extends Thread{

        public void run() {

                try {

                        Thread.sleep(2000);

                }

                catch(Exception e) {

                        e.printStackTrace();

                }

        }

}

public class MultiThreadingDemo {

        public static void main(String[] args) {

                Test test = new Test();

                for(int i=1;i<=100;i++) {

                        Thread t = new Thread(test);

                        t.start();

                        System.out.println(i);

}        }
```

}

Output:-
